PET HEALTH PLAN

AFFORDABLE YEAR ROUND
CARE FOR YOUR PET

Why Join the Pet Health Plan

You want your pet to remain healthy for many reasons – companionship is just one of them. But pets are different from you and me. They can't tell you when they are feeling sick, and sometimes you can't see there is anything wrong either. That's why, even more than you, they need regular check ups.

The USPCA Pet Health Plan focuses on preventative healthcare and has been carefully designed to help your much loved pet have a healthy and happy life.

The preventative healthcare includes **vaccinations, parasite prevention, regular health checks** and other services intended to prevent illness or detect potential issues before your pet suffers any discomfort.

The Pet Health Plan is not a substitute for pet insurance. Pet insurance provides financial cover for unforeseen illness and accidents.

The Pet Health Plan is the most cost effective way to give your pet everything they need to stay healthy, offering savings of up to 20% on the annual cost of the preventative treatments.
